

## **Andreaa Siara**

I would like to be on the BOM to support the school and its students.

## **Bernie Rowan**

As a professional Mum of three, with 12 years of first hand experience navigating the secondary school system, I have a deep understanding of the challenges and opportunities facing both students and parents. Having successfully supported two children through their secondary education with another still in school, I bring valuable insights and a commitment to ensuring a positive and supportive environment for all students. I believe my personal experience and dedication would be an asset to the board of management, helping shape the future of the school community.

## **Lynda Prendergast**

I would like to be considered as a representative on our school Board of Management. I am an active member of our community, involved in a number of different projects and committees in a volunteering capacity. I am also a member of a local primary school board of management. I hope to bring a broad range of experience from these different committees within the community to the role on the school board of management.

## **Sarah Dowling**

I have a daughter in transition year and a son hopefully starting first year next September. I was treasurer on the Board of Management of Citywest Educate Together N.S. for 4 years during the move from the current CP Fola building to the new primary building and during the challenge of Covid. We also shared a campus with Citywest & Saggart C.N.S. which required cooperation and compromise, similar to the shared campus that CP Fola share with Gaelscoil Lir and Rathcoole ETNS. I look forward to sharing my skills and experience with CP Fola and supporting the school community during the exciting and challenging period of change ahead as we move into our new home and grow into the future.
